Who has developed the solution – barani

(Deepak swaminathan and baranidharan are the founders of brand space virtual). They posses a vast experience in the field of experiential events and smart expos. Brand space is an outcome of extensive research and discussions with numerous business owners and leaders of manufacturing facilities.

Who has funded this solution?

Brand space is funded fully by media Point. Media Point group is a 26 year old experiential design agency with over 4500 assignments to their credit. We offer a wide spectrum of experiential solutions and our key assignments include, IoT India, ELECRAMA and IMTEX. We have been delivering memorable live and Virtual solutions for many leading Corporate and we share a long relationship of association with leading brands like Mahindra, Honeywell, Boeing, Hexaware, Parker to name a few.

With our vast experience, we were pioneers in unveiling a #MadeInIndia virtual platform for expos and events which have been successfully deployed for many leading Associations, PSU's and corporate since 2018. The platform brings together real time simulated experiences designed keeping the Asian geography at the core.

Brand Space Virtual is our recent offering addressing the needs of SMART communication & marketing requirements of the MSME business.
